

El Salvador Coffee Offerings 2018 Central America

We have been working with the Silva family since 2014 but have been familiar with their coffee since the El Salvador Cup of Excellence Auction in 2005. Rafael Silva oversees all of the production at their farm properties, and runs their milling operation Beneficio San Pedro in Apaneca, El Salvador. They use Penagos machines for de-pulping and demicillaging, and have extensive covered drying patios and specially designed drying greenhouses that they use. Lots are divided daily by farm, variety and process, and kept separate throughout the season. The attention to detail that Rafael and Carmen exhibit is nothing short of amazing, and we feel the coffees reflect this care every year.
